DASH DUO
Product Specifications

The **Dash DUO** is a solar-powered and wireless running timer for playgrounds and parks that measures how fast you run. The two lanes operate independently so runners can compete against themselves or challenge a friend.

Start side and finish side can be placed from 10 yards - 75 yards apart and require no external power source. Made of weatherproof materials and is virtually maintenance-free. Comes with 1-year warranty and is built to last for years. Simple installation.

Materials:

- Aluminum composite front panel that can be custom-printed with your logo; ABS plastic back panel
- Stele frame
- 35 W Monocrystalline solar panel and high-capacity 12V back-up battery

Product: Dash DUO Station

Measurements: 96" high x 21" wide

Cost: $9995
